Jakarta, 28 November 2023 Public Clarification

Warm greetings from FAPA

Addressing recent online investigations indicating that FAPA operates as a shadow company affiliated with a corporation and engages in irresponsible practices, there are several points we would like to clarify.

FAPA is a publicly listed company, managed independently by professionals. We recognize a profound responsibility to adhere to stringent ethical, legal, and corporate governance standards.

To reinforce the commitment, FAPA has also undertaken a series of practices aligned with industry requirements. The entire operations in our concessions has gone through a series of schemes that refer to [our NDPE policies](#), such as High Conservation Value (HCV), High Carbon Stock (HCS), Free, Prior, Inform, Consent (FPIC) practices, and Social Impact Assessment (SIA).

We are committed to continually enhancing the quality of our social engagement with all stakeholders, recognizing collaboration as a fundamental element within our operational framework. Furthermore, we facilitate the grievances from our stakeholders through the designated [grievance channel](#) available on our website.

Therefore, we repudiated reports implying our involvement in irresponsible practices. This includes any claims suggesting that FAPA has legal, financial, or operational affiliations with entities not listed as our subsidiaries.

Together is Better

Regards

Ricky Tjandra
Presiden Direktur PT FAP Agri Tbk
